22: 2018 Louisville Travel USA® Day Visitation Report

Introduction & Research Objectives

Longwoods International began tracking American travelers in 1985, and has conducted large-scale syndicated visitor research quarterly since 1990. In 2007, our proprietary Longwoods **Travel USA**[®] program was migrated from mail to online, with the benefits of rapid turnaround, enhanced flexibility and interactivity, as well as greater respondent involvement.

It is currently the largest ongoing study conducted of American travelers, providing our clients with more reliable data and greater ability to home in on key market segments of interest.

This report provides an overview for Louisville's **domestic** tourism business in 2018.

The visitor research program is designed to provide:

- Estimates of domestic overnight and day visitor volumes to Louisville.
- A profile of Louisville's performance within its overnight travel market.
- Domestic visitor expenditures in Louisville.
- Profiles of Louisville's day travel market.
- Relevant trends in each of these areas.

Methodology

Each quarter, a random, projectable sample of adult members (18 years of age and over) of a major U.S. consumer panel is invited to participate in the Travel USA® survey that is selected to be representative of the U.S. adult population

For the 2018 travel year, this yielded:

- 329,599 trips for analysis nationally
 - 233,098 overnight trips
 - 96,501 day trips
- For Louisville, the following sample was achieved in 2018:
 - 720 trips:
 - 422 overnight trips
 - 298 day trips
- For analysis, data were weighted on key demographics to correct for any differences between the sample and U.S. population targets.
